Studio Production

This 2-day class teaches the entire main studio operation. Day one concentrates on studio cameras and communications, audio set up, basic lighting and board operation and room specifications. Day two teaches the control room stations: tape operator, director, technical director, audio and graphics and equipment that compliments each station. Lastly, you'll participate in a "round robin" style exercise and use your newly acquired skills to produce a short video segment.

2 night class, 7:00 – 9:00 pm

Wednesday April 21
& Thursday April 22

Introducing
"Flex-Sched"
classes

The following classes are scheduled at your convenience with BATV's new **"Flex-Sched"** class schedule. Instructors are available Weekdays, Weekends and Evenings. Pick a class and call to schedule a time that works for you.

Intro To Editing

This 90 minute class introduces you to the principles of editing, components of the edit bay and the signal flow of the room.

Editing with Final Cut Pro

prerequisite: Intro to Editing

Learn to edit in this 2-day class with our exciting non-linear Final Cut Pro editing software.

Turn your video clips into a program by adding music, voice, or other audio, cutting and adding footage, and placing graphics, transitions and titles.

Livetype Graphics

prerequisites: Intro to Editing, Editing with Final Cut Pro

Livetype is a cutting edge graphics program designed specifically to complement Final Cut Pro. Choose from a wide range of pre-made "LiveFonts", backgrounds, effects and templates to create dynamic graphics to import into Final Cut Pro.

Mini Studio

In just one hour you can learn to operate our two camera Mini Studio, complete with a virtual set option. You'll be certified and ready to start making programming that same day!
